

IDK? Otitis Media?
I'm not paying for that...

That was your earache.

Ugh... why didn't you
just say so?!

That's how it was coded.

I H8 U.

Just because something is functional, doesn't mean it is usable. Redde was built from the ground up with patient usability as our primary focus.

That means that there's no single feature that makes Redde intuitive and easy to use, rather it's the entire ecosystem all working together that makes Redde so enjoyable.

For those of you who like to see the feature list too, here ya go:

- Mobile-first design
- User friendly navigation
- Designed to promote user self-servicing
- Friendly phrasing medical terms
- Responsive design custom fits all screen shapes and sizes

REDDE Impact
